	Build number		1.0
	Test type		AT
	Test date		25.09.2021-10.07.2021
	Tester		A.Kulish
	OS		Google Chrome 91.0
	Browser		Windows 10 20H2
	Project Name		"Заявка на стажировку"
	Project Environment		https://test-prob.demohoster.com/

Module	Description	Total Test Cases Run		360	100%
Main Application page (filling in form)	**Module Descrition**	Test: Cases Passed		272	75,56%
		Test: Cases Falled		87	24,17%
		Test: Cases Not Implemented		0	
		Test: Cases Passed with issue		1	0,28%
		Test: Cases Not Available		0	0,00%
		Test: Cases Not Tested		0	

Test Type	Functionality	Actions	Expected Result	Reslt	Comment
Smoke		Perform check that The main application page is opened	Page is loaded correctly	Passed	
Smoke		Perform check that The form is not submitted if the required fields are not filled in	The form is not submitted if the required fields are not filled in	Passed	
Smoke		Perform check of submitting a form when all fields are filled in with valid data		Passed	
AT		Perform check of appearance of a scroll when changing the size of the browser window		Passed	
AT		Perform check of saving the location of elements when the browser window is reduced		Passed	
AT		Perform check of appearance of a scrollbar when reducing the size of the browser window		Passed	
AT		Perform check of ability to change the size of the browser window		Passed	
AT		Perfom check that cursor is automatically placed in the first input field when the form is opened.	The cursor is automatically placed in the first input field when opening the form. The field is in focus.	Falled	https://jira.itransition.com/browse/QATC-370175
AT		Perform check that Required field is marked with the appropriate symbol		Falled	https://jira.itransition.com/browse/QATC-371694
AT		Perfom check of Tabbing navigation	the Tab button on the keyboard moves the cursor/selection to the following (Left>>To the right, Top> > Down) a text field or any active element. After passing all the elements, the cursor moves to the first element on the page (the page information icon, then the URL, then the page elements).	Falled	https://jira.itransition.com/browse/QATC-370303
AT		Perfom check that the Window has a title	the Window has a "Заявка на стажировку в компании" title	**Passed**	
AT		Perform check of Correct spelling of window title	The title name is "Заявка на стажировку в компании"	Falled	https://jira.itransition.com/browse/QATC-370617
	"Личные данные"				
AT		Perform check that fields and their names are aligned	The fields and their names are aligned to the left side	Falled	https://jira.itransition.com/browse/QATC-370753
	"Фамилия.Имя.Отчество"				
Smoke	"Фамилия" field	Perform check that fields allow to enter characters		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed With Issue	https://jira.itransition.com/browse/QATC-370793
MAT		Perform check that "Фамилия" field accepts the allowed number of characters	the field allows to enter from1 to 40 characters	Passed	
MAT		Perform check that "Фамилия" field does not accept unresolved number of characters	the field does not allow to enter more than 40 characters	Passed	
AT		Perform check that the "Фамилия" field accepts only input of Cyrillic alphabet		Passed	
AT		Perform check that it is not possible to insert (Ctrl+V) characters that are not allowed to be entered manually	Error message "Можно вводить только русские буквы" under the "Фамилия.Имя.Отчество" field	Falled	https://jira.itransition.com/browse/QATC-370811
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	

AT		Perform check that only spaces are perceived by the system as an empty field	Error message "Поле обязательно для заполнения" under the "Фамилия.Имя.Отчество" fields after trying of submitting form	Failed	https://jira.itransition.com/browse/QATC-371630
AT		Perform check that The entered tags are displayed in the same form in which they were entered		Passed	
MAT		Perform check that Error message is displayed when submitting a form with an empty field	Error message "Поле обязательно для заполнения" under the "Фамилия.Имя.Отчество" fields	Passed	
AT		Perform check of "Поле обязательно для заполнения" error message text		Passed	
AT		Perform check that the "Поле обязательно для заполнения" error message is unified		Failed	https://jira.itransition.com/browse/QATC-371677
AT		Perform check that Error message is displayed when entering non-Cyrillic characters	Error message "Можно вводить только русские буквы" under the "Фамилия.Имя.Отчество" field	Passed	
AT		Perform check that the "Можно вводить только русские буквы" error message is unified		Passed	
AT		Perform check of "Можно вводить только русские буквы" error message text		Passed	
MAT		Perform check that "Фамилия" field is required		Passed	
AT		Perform check that field has a name		Passed	
Smoke	"Имя" field	Perform check that fields allow to enter characters		Passed	
MAT		Perform check that "Имя" field accepts allowed number of characters	the field allows to enter from1 to 40 characters	Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
MAT		Perform check that "Имя" field does not accept unresolved number of characters	the field does not allow to enter more than 40 characters	Passed	
AT		Perform check that the "Имя" field accepts only the input of Cyrillic alphabet		Passed	
AT		Perform check that it is not possible to insert (Ctrl+V) characters that are not allowed to be entered manually	Error message "Можно вводить только русские буквы" under the "Фамилия.Имя.Отчество" field	Failed	https://jira.itransition.com/browse/QATC-371709
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
AT		Perform check that only spaces are perceived by the system as an empty field	Error message "Поле обязательно для заполнения" under the "Фамилия.Имя.Отчество" fields after trying of submitting form	Failed	https://jira.itransition.com/browse/QATC-371640
AT		Perform check that The entered tags are displayed in the same form in which they were entered		Passed	
AT		Perform check that Error message is displayed when submitting a form with an empty field	Error message "Поле обязательно для заполнения" under the "Фамилия.Имя.Отчество" field	Passed	
AT		Perform check that Error message is displayed when entering non-Cyrillic characters	Error message "Можно вводить только русские буквы" under the "Фамилия.Имя.Отчество" field	Passed	
c		Perform check that "Имя" field is required		Passed	
AT		Perform check that field has a name		Passed	
Smoke	"Отчество" field	Perform check that fields allow to enter characters		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
MAT		Perform check that "Отчество" field accepts allowed number of characters	the field allows to enter from1 to 40 characters	Passed	
AT		Perform check that "Отчество" field does not accept unresolved number of characters	the field does not allow to enter more than 40 characters	Failed	https://jira.itransition.com/browse/QATC-371733
AT		Perform check that the "Отчество" field accepts only the input of Cyrillic alphabet		Failed	https://jira.itransition.com/browse/QATC-371746
AT		Perform check that it is not possible to insert (Ctrl+V) characters that are not allowed to be entered manually		Failed	https://jira.itransition.com/browse/QATC-371756
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
AT		Perform check that The entered tags are displayed in the same form in which they were entered		Passed	
AT		Perform check that Error message is displayed when submitting a form with an empty field	Error message "Поле обязательно для заполнения" under the "Фамилия.Имя.Отчество" field	Failed	https://jira.itransition.com/browse/QATC-371795
MAT		Perform check that "Отчество" field is required		Failed	https://jira.itransition.com/browse/QATC-371795
AT		Perform check that field has a name		Passed	
	"Дата рождения"				

				Status	
Smoke	Day dropdown list	Perform check of ability to select a value from the dropdown list with the mouse pointer or arrows from the keyboard		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
MAT		Perform check that dropdown list contains a complete list of days		Falled	https://jira.itransition.com/browse/QATC-377245
AT		Perform check that values from dropdown list are sorted in a logical way		Passed	
AT		Perform check Displaying the default value		Passed	
AT		Perform check of Highlighting each selected list value		Passed	
AT		Perform check of Correct spelling of the list values		Passed	
MAT		Perform check that the field is required		Passed	
Smoke	Month dropdown list	Perform check of ability to select a value from the dropdown list with the mouse pointer or arrows from the keyboard		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
MAT		Perform check that dropdown list contains a complete list of months		Falled	https://jira.itransition.com/browse/QATC-372211
AT		Perform check that values from dropdown list are sorted in a logical way		Falled	https://jira.itransition.com/browse/QATC-372218
AT		Perform check Displaying the default value		Passed	
AT		Perform check of Highlighting each selected list value		Passed	
AT		Perform check of Correct spelling of the list values		Passed	
AT		Perform check that the field is required		Passed	
AT		Perform check of impossibility to enter (numeric) day that nonexist in month		Falled	https://jira.itransition.com/browse/QATC-372299
AT	Year Field	Perform check that text field accepts the allowed number of characters	text field accepts 4 number of characters	Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
AT		Perform check that text field does not accept less than 4 characters	Error message "Введите 4 цифры" under the "Дата рождения" field	Falled	https://jira.itransition.com/browse/QATC-372315
AT		Perform check that text field does not accept more than 4 characters		Falled	https://jira.itransition.com/browse/QATC-372321
AT		Perform check that the field accepts only input of numbers		Passed	
AT		Perform check that it is not possible to insert (Ctrl+V) characters that are not allowed to be entered manually		Falled	https://jira.itransition.com/browse/QATC-372371
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
AT		Perform check that Error message is displayed when typing non-numeric data	Error message "Можно вводить только цифры" under the "Дата рождения" field	Passed	
AT		Perform check of "Можно вводить только цифры" error message text		Passed	
AT		Perform check that the "Можно вводить только цифры" error message is unified		Falled	https://jira.itransition.com/browse/QATC-372463
MAT		Perform check that the field is required		Falled	https://jira.itransition.com/browse/QATC-372385
	"Контактный телефон"				
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
Smoke		Perform check that text field accepts allowed number of characters	the field allows to enter 13 characters	Passed	
AT		Perform check that text field does not accept entering more than 13 characters		Falled	https://jira.itransition.com/browse/QATC-372497
AT		Perform check that text field does not accept entering less than 13 characters	Error message "Поле должно содержать 13 цифр"	Falled	https://jira.itransition.com/browse/QATC-374272
AT		Perform check of Field Mask		Falled	
AT		Perform check that the field accepts only the input of numbers		Falled	https://jira.itransition.com/browse/QATC-374281
AT		Perform check that it is not possible to insert (Ctrl+V) characters that are not allowed to be entered manually	Error message "Поле должно содержать 13 цифр"	Falled	
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
AT		Perform check that the field is required		Passed	
		Perform check that Error message is displayed when submitting a form with an empty field	"Нужно заполнить телефон и e-mail чтобы мы могли связаться с вами." error message	Passed	
AT		Perform check of "Нужно заполнить телефон и e-mail чтобы мы могли связаться с вами." error message text		Passed	

AT		Perform check that the "Нужно заполнить телефон и e-mail чтобы мы могли связаться с вами." error message is unified		Falled	https://jira.itransition.com/browse/QATC-372550
AT		Perform check that only spaces are perceived by the system as an empty field		Falled	https://jira.itransition.com/browse/QATC-372567
Smoke	**"Email"**	Perform check that "Email" field accepts existing Email		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
AT		Perform check that The field accepts allowed number of characters	The field accept entering to 255 characters	Falled	https://jira.itransition.com/browse/QATC-372591
MAT		Perform check that the field is required		Passed	
AT		Perform check that "Email" field accepts Cyrillic characters in domain		Passed	
AT		Perform check that "Email" field accepts Cyrillic characters in name and domain		Passed	
AT		Perform check that "Email" field accepts Dash in address field		Passed	
AT		Perform check that "Email" field accepts Dash in domain name		Passed	
AT		Perform check that "Email" field accepts Digits in address		Passed	
AT		Perform check that "Email" field accepts containing dot in the address field		Passed	
AT		Perform check that "Email" field accepts containing dot with subdomain		Passed	
AT		Perform check that "Email" field accepts Email only with the "@" character entered		Falled	https://jira.itransition.com/browse/QATC-374041
AT		Perform check that "Email" field does not accept Email without the "@" character	"Email введен неверно" Error message is displayed under the "Email" text field	Falled	https://jira.itransition.com/browse/QATC-374038
AT		Perform check that only spaces are perceived by the system as an empty field		Falled	https://jira.itransition.com/browse/QATC-372647
AT		Perform check that "Email" field does not accept and process tags		Falled	https://jira.itransition.com/browse/QATC-369958
AT		Perform check that "Email" field does not accept Missing username	"Email введен неверно" Error message is displayed under the "Email" text field	Falled	https://jira.itransition.com/browse/QATC-374034
AT		Perform check that "Email" field does not accept Leading dash in front of domain	"Email введен неверно" Error message is displayed under the "Email" text field	Falled	https://jira.itransition.com/browse/QATC-374044
AT		Perform check that Error message is displayed when submitting a form with an empty field	"Нужно заполнить телефон и e-mail, чтобы мы могли связаться с Вами." error message	Falled	https://jira.itransition.com/browse/QATC-372619
AT		Perform check of "Нужно заполнить телефон и e-mail, чтобы мы могли связаться с Вами." error message text		Falled	https://jira.itransition.com/browse/QATC-372632
AT		Perform check that the "Нужно заполнить телефон и e-mail, чтобы мы могли связаться с Вами." error message is unified		Falled	https://jira.itransition.com/browse/QATC-372550
Smoke	**"Пол"**	Perform check that Each option from the set of radio buttons can be enabled		Passed	
MAT		Perform check that the data is saved and displayed after submitting the form		Passed	
MAT		Perform check that Each option from the set of radio buttons can be enabled again after switching off		Falled	https://jira.itransition.com/browse/QATC-372737
AT		Perform check that no more than 1 radio button can be enabled		Passed	
AT		Perform check that By default one radio button is enabled		Falled	https://jira.itransition.com/browse/QATC-372657
AT		Perform check of radio button unification		Passed	
AT		Perform check that the field is not required		Passed	
	"Образование"				
AT		Perform check that fields and their names are aligned		Falled	https://jira.itransition.com/browse/QATC-372745
AT		Perform check that design of the fields is unified		Falled	https://jira.itransition.com/browse/QATC-372745
Smoke	"ВУЗ" field	Perform check that fields allow to enter characters		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
AT		The field accepts from 1 to 255 characters		Falled	https://jira.itransition.com/browse/QATC-374054
AT		The field does not accept more than 255 characters		Passed	
AT		Perform check that field has a names		Passed	
AT		Perform check that only spaces are perceived by the system as an empty field	Error message "Поля обязательны для заполнения" is displayed under the "Образование" fields	Falled	https://jira.itransition.com/browse/QATC-374070
AT		Perform check that spaces inside the text are not cut off		Passed	

AT		Perform check that The field does not apply tags	The entered tags are displayed in the same form in which they were entered	Failed	https://jira.itransition.com/browse/QATC-370039
MAT		Perform check that field accepts input of special characters		Passed	
MAT		Perform check that the field is required		Failed	https://jira.itransition.com/browse/QATC-374065
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
Smoke	"Курс" field	Perform check that fields allow to enter characters		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Failed	https://jira.itransition.com/browse/QATC-374077
MAT		The field accepts from 1 to 255 characters		Passed	
AT		The field does not accept more than 255 characters		Failed	https://jira.itransition.com/browse/QATC-374258
AT		Perform check that field has a name		Passed	
AT		Perform check that only spaces are perceived by the system as an empty field	Error message "Поля обязательны для заполнения" is displayed under the "Образование" fields	Failed	https://jira.itransition.com/browse/QATC-374382
AT		Perform check that spaces inside the text are not cut off		Passed	
MAT		Perform check that the field accepts input of numbers		Passed	
MAT		Perform check that the field is required		Passed	
MAT		Perform check that field does not accept input of special characters	"Можно вводить только цифры" Error message is displayed under the "Курс" fields	Failed	https://jira.itransition.com/browse/QATC-375689
MAT		Perform check that field does not accept input of letters	"Можно вводить только цифры" Error message is displayed under the "Курс" fields	Failed	https://jira.itransition.com/browse/QATC-375682
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
Smoke	"Направление" field	Perform check that fields allow to enter characters		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
MAT		The field accepts from 1 to 255 characters		Failed	https://jira.itransition.com/browse/QATC-374329
AT		The field does not accept more than 255 characters		Passed	
AT		Perform check that field has a names		Passed	
AT		Perform check that only spaces are perceived by the system as an empty field	Error message "Поля обязательны для заполнения" is displayed under the "Образование" fields	Failed	https://jira.itransition.com/browse/QATC-374337
AT		Perform check that The field does not apply tags	The entered tags are displayed in the same form in which they were entered	Failed	https://jira.itransition.com/browse/QATC-370042
AT		Perform check that spaces inside the text are not cut off		Passed	
MAT		Perform check that field accepts input of special characters		Passed	
MAT		Perform check that the field is required		Failed	https://jira.itransition.com/browse/QATC-374343
AT		Perform check that it is possible to insert (Ctrl+V) characters that are allowed to be entered manually		Passed	
Smoke	"Специализация" field	Perform check that fields allow to enter characters		Passed	
Smoke		Perform check that the entered data is saved and displayed after submitting the form		Passed	
MAT		The field accepts from 1 to 255 characters		Failed	https://jira.itransition.com/browse/QATC-374371
AT		The field does not accept more than 255 characters		Passed	
AT		Perform check that field has a names		Passed	
AT		Perform check that only spaces are perceived by the system as an empty field	Error message "Поля обязательны для заполнения" is displayed under the "Образование" fields	Failed	https://jira.itransition.com/browse/QATC-374382
AT		Perform check that The entered tags are displayed in the same form in which they were entered		Failed	
AT		Perform check that spaces inside the text are not cut off		Passed	
AT		Perform check that The field does not apply tags	The entered tags are displayed in the same form in which they were entered	Failed	https://jira.itransition.com/browse/QATC-370068
